

## **Infrastructure and other resources available**

### **Soft Skill Development Facilities**

Various programme for soft skill development in students are held regularly at department as well as institute level throughout the year. Reputed trainers are engaged to develop various soft skills in a planned manner. The efforts are aimed at personal professional development of students and enhance their employability. The focused areas are-

- 1) Development of communication ability**
- 2) Interview techniques**
- 3) Career counseling**
- 4) Leadership and Managerial skills**

The institute has specially developed communication laboratory with 20 computers and latest software to improve communication ability of students in spoken and written English. This 'Language Laboratory' would be used especially for students identified under tribal development plan (TDP) of TEQIP. Special arrangements have also been made to teach French and German languages to those interested.

In view of the large number of companies from coveted sectors visiting this college for campus placements the need of training students in various interview related skills has been identified. The institute regularly organizes programmes on leadership development, body language, group discussion, personality development and so on by hiring skilled professionals and management trainers. In addition, the students receive direct and indirect inputs, albeit in unstructured manner, for personality and professional development through their participation in various co curricular and extra curricular activities conducted by departmental societies throughout the year.

The college has acquired aptitude-testing software so as to identify shortcomings in students and accordingly provide counseling towards building professionally productive career.
